

## **How does it work?**

CITYHOP is simple & easy to use. It's just book, swipe, drive.

### **Click**

To become a member join on line or contact us by phone or email.

Once you're membership is accepted we'll send you out a member pack that includes a smartcard and member guide on how it all works.

### **Book**

Then you can book our cars online or over the phone. Cars are located at three Auckland City locations initially. But we encourage you to tell us where you would like a car park spot because we have relationships with all the major parking providers.

Encourage your building owner to put one in your building for all your team or apartment dwellers to have the Cityhop benefit.

We give you the flexibility of booking your car of choice and your location of choice. Book any time, day or night. Up to a year in advance, for an hour, a day or any period in between.

### **Swipe**

After you've booked your car, just go to the highly visible Cityhop carpark spot swipe your card over the windscreen where the smartcard box is located and the doors will unlock. You will find the key on a stretchy cord under the steering wheel. The car is immobilised until you have swiped the car with your card.

### **Drive**

Now you can drive wherever you like. Return it to the same reserved parking space when you've finished. No paperwork. No hassles. And no hidden costs. CITYHOP makes driving that easy! We will bill you at the end of each month.

### **No Hassles**

Car ownership is expensive. And environmentally costly. So if you drive less than 10,000 km a year, you'll find us significantly cheaper than owning your own car.

You don't have to worry about anything. We pay registration, insurance, petrol costs, cleaning costs and maintenance.

Ends
