## THE TERRACES VINEYARD WAIPARA

This 23 acre block is planted on a gently sloping north east facing slope on the west side of the Waipara Valley.

It is planted in Pinot Noir clones 667, 777 and 115. Syrah and Pinot Gris are also planted.

The soil is a rich silt loam 20-30cm deep with a pH of 5.7 over a clay loam with some lime giving a pH of 7.9.

This block is our warmest site in Waipara and is virtually frost free in winter.
